

Information on REACH - Regulation (EC) No 1907/2006

With regard to the REACH regulation, our company repeatedly receives enquiries and questionnaires regarding the "REACH conformity" of our products. The REACH Regulation does not provide for such declarations of conformity. It implies in fact a specific information obligation that requires companies to actively inform their customers if REACH-relevant substances are contained in the products.

As a manufacturer of door hinges and door hinge systems, SIMONSWERK GmbH is classed as a "downstream user" according to REACH. Our customers purchase from us exclusively non-chemical products which do not release any substances provided that normal and foreseeable conditions of use are applied. SIMONSWERK GmbH is therefore not subject to any registration or safety data sheet requirements.

REACH - Registration and Information Obligation in the Supply Chain (Article 33 / SVHC)

All products supplied by SIMONSWERK GmbH are classified in accordance with REACH as „products“ and are therefore not subject to registration.

Only substances and mixtures are used for production for which the information prescribed by REACH (safety data sheets, etc.) is available from the suppliers or which do not contain any ingredients requiring registration.

In addition, SIMONSWERK GmbH undertakes to monitor the updating of REACH requirements, in particular the expansion of the candidate list and the inclusion of substances in REACH Annexes (Candidate List of Substances of Very High Concern for Authorization). We also pursue the implementation of REACH on the part of our suppliers in our own interest and to ensure a high level of product safety for our customers.

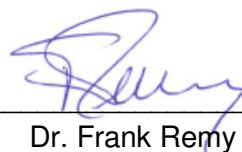

SIMONSWERK GmbH will inform their customers as soon as it is known that the articles supplied contain substances listed on the "candidate list" pursuant to Article 59 (1, 10) of Regulation (EC) No 1907/2006 ("REACH") in the specified concentration above 0.1% weight by weight (w/w).

All data are based on our current state of knowledge. For factors beyond our knowledge and control, no warranty and liability can be assumed.
